# Emmanuel Abanobi

LAGOS, LAGOS

abanobie01@gmail.com

## Summary

I am versatile Full Stack Developer with hands-on experience in both frontend and backend development, skilled in creating dynamic and responsive websites and mobile application using modern frameworks like **Vue.js**, **Nuxt.js**, **Tailwinds**, and **Flutter** for mobile app development . Proficient in building robust server-side applications with **Node.js** and **Express**. Currently expanding expertise in blockchain development through a hands-on project, aiming to leverage this knowledge in innovative software solutions. Committed to continuous learning and adapting to new technologies to deliver high-quality, scalable applications.

---

## Skills

JavaScript, Typescript, Flutter , Tailwinds, Vue.js, Nuxt.js, Firebase, iOS Development, web3, Node.js, Git, GitHub, Github Action , Rest Api , GraphQL, Testing and Validation , Component Base Architecture

## Experience

### Freelancers

web developer • Arizona City, AZ

06/2023 - 09/2023

#### Responsibilities:

- **Client Consultation:** Collaborated with clients to understand their requirements, preferences, and goals for the website, ensuring alignment with their business objectives.
- **Website Design and Development:** Designed and developed a fully functional website from scratch, utilizing modern web technologies and best practices for performance, usability, and accessibility.
- **Frontend Development:** Implemented the website's user interface using **Vue.js** and **React.js**, ensuring a responsive and intuitive user experience across various devices and screen sizes.
- **Backend Development:** Developed server-side functionalities using **Node.js** and **Express.js**, including API integrations, data handling, and user authentication.
- **Content Management:** Integrated content management systems (CMS) or custom solutions to allow clients to easily update and manage website content.
- **Testing and Debugging:** Conducted thorough testing across different browsers and devices to identify and fix bugs, ensuring the website's functionality and stability.
- **Deployment and Maintenance:** Managed the deployment process, including hosting setup and configuration, and provided ongoing maintenance and support to address any issues and implement updates.
- **Client Training:** Provided training and documentation to clients on how to use and maintain their new website, ensuring they were equipped to manage their site independently.
- **Feedback and Revisions:** Collected client feedback and made necessary revisions to meet their expectations and improve the overall quality of the website.

### Freelancers

Blockchain Engineer • LAGOS, LAGOS

03/2024 - 05/2024

**Project Overview:** Developed a smart contract for a client that includes multiple features to meet their specific needs and requirements.

#### Responsibilities:

- **Requirement Analysis:** Engaged with the client to gather detailed requirements and understand the functionalities needed for the smart contract.

- **Smart Contract Design:** Designed and implemented a smart contract using **Solidity**, ensuring it met the functional and security requirements outlined by the client.
  - **Features Implemented:**
  - **Feature 1:** Enabled secure and transparent token transfers.
  - **Feature 2:** Allowed automated execution of transactions based on predefined conditions
  - **Feature 3:** Implemented user registration and management with access controls.
  - **Feature 4:** integration with external data sources via Oracles.
  - **Testing and Auditing:** Conducted comprehensive testing to ensure the smart contract's reliability and security. Performed code audits to identify and fix potential vulnerabilities.
  - **Deployment:** Deployed the smart contract on the Ethereum blockchain, ensuring successful integration with the client's existing infrastructure.
  - **Documentation:** Created detailed documentation for the smart contract, including instructions for deployment, usage, and maintenance.
  - **Client Training and Support:** Provided training to the client on how to interact with the smart contract and offered ongoing support for any issues or additional features.
- 

## Education

### federal university of technology owerri

computer science • Lagos , Lagos

09/2020

- **Leadership:** Actively participated in computer science community, where i as an active member.
- **Relevant Coursework:** Completed advanced coursework in freeCodeCamp and other resourceful program these help me in laying a strong foundation in web development
